RE: Jason Gov

To Whom in May Concern,

Jason Gov has been a dedicated volunteer at the Peter Lougheed Centre since May 2024. During this time, he has accumulated over 230 volunteer hours in our Patient Experience Mobility Program. I am one of the Volunteer Coordinators that interviews and places volunteers in specific programs here at the hospital. Jason is extremely outgoing and is very honest and approachable. Jason is motivated and has been committed to his volunteer role.

Jason has volunteers in the patient experience visiting program. In this program he helps with Mealtime offering patients' assistance and visitation during their meals. Patients love to have company while they eat their meals and to have assistance in opening lids, re-heating cold food and retrieving condiments and ice water. Jason also provides social interaction for the patients by doing activities with patients such as puzzles, playing cards, and handing out magazines and newspapers all in hopes to assist with the recovery of the patients.

Most recently we have incorporated the patient experience program with our walk talk and roll program. Jason is also part of this new initiative at the hospital which involves encouraging patients to get up and out of bed and be mobile. This promotes positive physical interaction and helps in the patient's recovery.

Jason demonstrates strong leadership skills through always stepping up to train new volunteers as well as his sense of community and giving back to others. Jason has shown hard work and determination in everything he does, and his great character makes him an excellent candidate for any future goals. We truly appreciate his dedication to all our programs and the hospital.

I highly recommend him.
